Canandaigua, NY 14424

JOB OPPORTUNITY: Land Surveying Intern

Hours: 25-40 hours per week Monday-Friday.

Pay: \$15.00/hour – opportunity to increase hourly rate with experience

About Us:

Marks Engineering, P.C. is a full-service Engineering, Land Surveying, and Landscape Architecture firm located in Canandaigua, NY. We provide Engineering, Landscape Architecture and Land Surveying services to the Finger Lakes and Upstate New York region. The Land Surveying department works closely with the Engineering department and local attorneys to provide boundary/instrument surveys, topographic surveys, “as-built” surveys and stakeout services. The department works with cutting edge surveying technology including RTK GPS, and robotic total station. The Land Surveying department has been in operation for over 35 years and has surveyed the majority of properties in Ontario County.

Job Description:

1. Assist licensed surveyors in conducting field surveys including boundary, topographic, and construction surveys.
2. Utilize surveying equipment such as total stations, GPS receivers, and laser levels under the guidance of senior staff.
3. Perform data collection, measurement, and documentation tasks accurately and efficiently.
4. Aid in the preparation of survey drawings, maps, and reports using CAD software.
5. Assist with research and analysis of property records, legal descriptions, and survey data.
6. Participate in surveying projects from start to finish, ensuring adherence to project schedules and quality standards.
7. Follow safety protocols and procedures to maintain a safe working environment.
8. Learn and apply relevant surveying principles, techniques, and regulations through on-the-job training and mentorship.
9. Collaborate effectively with team members and communicate project updates and findings as needed.
10. Perform other duties as assigned to support the operations of the surveying department.

Canandaigua, NY 14424

Preferred Skills/Experience:

- Pursuing or recently completed a degree in Surveying, Geomatics, Civil Engineering, or a related field.
- Basic knowledge of surveying principles, equipment, and techniques preferred.
- Proficiency in using CAD software for drafting and design purposes is a plus.
- Strong attention to detail and problem-solving skills.
- Ability to work outdoors in various weather conditions and terrain.
- Excellent communication and interpersonal skills.
- Must be able to work both independently and as part of a team.
- Willingness to learn and take on new challenges in a dynamic work environment.
- Valid driver's license with a clean driving record preferred.

Please email resumé and cover letter to: info@marksengineering.com

Position will be open until filled.
